Barbarella's BANG BANG

“Barbarella has the ache of a Billie Holliday with the playful vocal acrobatics of a Cyndi Lauper.” - Thought Catalogue

Accordion-toting five piece Barbarella's Bang Bang combine European gypsy folk and theatrical pop musicality. With roots in Eastern and Romany Europe, and fronted by the hypnotic Barbarella, the Bang Bang will take you on a ride from a world of lost lovers to the shadows of Bohemian dance halls.

Having played prestigious events such as Fuji Rock in Japan and Germany's infamous Fusion Festival to rapturous reception, they know how to work an audience of any size. They have toured Europe from Italy and Romania to their homes in the city of London where they're firm favourites. And it's thought that Barbarella is perhaps the UK's, if not the world's, best kazoo player...
